Phone: 0953782791

Office Hours: martedì e giovedì dalle 10:00 alle 12:00

LEARNING OBJECTIVES

- **practical neurology**

Historical collection data

Knowledge of main neurological diseases

Neurology examination

How to hypothesize diagnosis

- **Professional training-Anatomic Pathology**

Knowledge of the main macroscopic alterations on the basis of tumor and non-tumor diseases.

- **TIROCINIO PROFESSIONALIZZANTE NEFROLOGIA**

Collection of signs and symptoms of kidney disease. how to request further assessments to confirm the suspected diagnosis. Decision tree, communication of the diagnosis and prognosis

COURSE STRUCTURE

- **practical neurology**

Outpatient setting

inpatient setting

senior neurologist discusses with students each clinical case in both above reported settings

- **Professional training-Anatomic Pathology**

Weekly training in laboratory of Anatomic Pathology

- **TIROCINIO PROFESSIONALIZZANTE NEFROLOGIA**

Practical training in the ward and discussion of clinical cases

- **TIROCINIO PROFESSIONALIZZANTE UROLOGIA**

practical course

DETAILED COURSE CONTENT

- **practical neurology**

Main central and peripheral neurologic disease

- **Professional training-Anatomic Pathology**

Observation of the surgical sample.

Microscopic observation of cyto-histopathological slides.

- **TIROCINIO PROFESSIONALIZZANTE NEFROLOGIA**

General knowledge of internal interest, principles of physiology and main nephrological diseases

TEXTBOOK INFORMATION

- **practical neurology**
