---

### LEARNING OBJECTIVES

- **Practical Haematology**

Basic specialistic skill acquisition through the attendance at inpatient and outpatient clinics.

## **COURSE STRUCTURE**

- **Practical Haematology**

Attendance at inpatient and outpatient clinics side by side to permanent medical personnel.

Whether the lessons will be done in a virtual setting or in a mixed modality, changes could be introduced to carry out the program as detailed in Syllabus.

---

## **DETAILED COURSE CONTENT**

- **Practical Haematology**

The student should acquire the following knowledge and skills:

- Be able to execute a clinical evaluation of the hematological patient
- Knowledge of the main laboratory exams for the hematological patient and their utility

Note: The hematology training will be done at VI year due to the modification of study plan.
